B&D

Find a garage door that feels right at home.

A new garage door should look right, work beautifully and suit the way you live. Explore our designs, compare the practical details and let us help you bring your ideas together.

Start with your home

Make room for the practical details

Choose with the information in front of you

We can bring the showroom to you

Start with your home

What matters to you?	Explore next
Choosing the right type of door	Compare roller, sectional and specialist doors, then check the model’s size and installation requirements.
Finding your colour and finish	Explore COLORBOND colours, matt finishes, timber-look designs and specialist finishes.
Seeing real design ideas	Browse our door photography by roller, sectional, designer and timber-look styles.
Trying a different look on your home	Use our visualiser with your own photo or one of the sample homes.

Make room for the practical details

The opening is only part of the picture. We’ll also check the space around it, including headroom, sideroom and room for the door and opener to travel. Tell us how you use your garage, whether you want smartphone access and if the project has wind or bushfire requirements.

Our AUTO LOCK , safety beams and smart door solutions can add useful features to compatible systems. We’ll explain what is included with your selected product and what is an option.

Choose with the information in front of you

Our product pages bring together colours, profiles, features, specifications and model-specific warranty information. Use them to build your shortlist, then check a physical colour sample and the final

configuration with us before ordering.
