B&D; Garage Doors has spent over 80 years ensuring homeowners have garage doors that function smoothly and reliably while providing the safety and security to protect their valuable possessions. With innovations like the AUTO LOCK™ system, safety beams, and pinch-free designs, B&D; ensures your garage door keeps your family and belongings secure. A Garage Door That Locks Itself Did you know that an ordinary garage door, when shut, is not actually locked? This leaves your garage—and everything in it—vulnerable. But with B&D;'s AUTO LOCK™ system, your garage door isn't just closed, it's locked shut. The AUTO LOCK™ features a heavy-duty bolt that automatically engages every time the door closes, ensuring that your garage is fully secure without you having to do a thing. For anyone concerned about safety, this feature provides invaluable peace of mind. Whether you store valuable tools, equipment, or even your car in the garage, AUTO LOCK™ offers an added layer of protection that keeps your possessions safe, without the need for manual intervention. Designed for Your Family's Safety Did you know that an ordinary garage door, when shut, is not actually locked? This leaves your garage—and everything in it—vulnerable. But with B&D;'s AUTO LOCK™ system, your garage door isn't just closed, it's locked shut. The AUTO LOCK™ features a heavy-duty bolt that automatically engages every time the door closes, ensuring that your garage is fully secure without you having to do a thing. For anyone concerned about safety, this feature provides invaluable peace of mind. Whether you store valuable tools, equipment, or even your car in the garage, AUTO LOCK™ offers an added layer of protection that keeps your possessions safe, without the need for manual intervention. Convenience and Safety for Those Who Need It In addition to protecting kids and pets, B&D;'s safety beams provide convenience for individuals with mobility or disability challenges. For elderly individuals or anyone who may need extra time to enter or exit the garage, the automatic safety feature ensures they won't feel rushed. The garage door will pause and reverse if there's any obstruction, offering peace of mind for those who may move a bit slower and need that extra bit of reassurance. Pinch-Free Designs for Added Protection Accidents can happen quickly, which is why B&D; developed pinch-free sectional garage doors for added protection. These doors are designed with specially engineered panels that eliminate the risk of fingers or hands getting caught as the door operates. This feature is especially useful for families with curious children who might try to

grab the door as it moves. The pinch-free design ensures that everyone stays safe, no matter how often the garage door is opened and closed. Security and Safety You Can Trust At B&D;, we're committed to creating garage doors that do more than just open and close. They are built to provide your home with unparalleled safety, security and convenience . From the AUTO LOCK [™] system, which locks your door every time it closes, to safety beams that protect children, pets, and elderly family members, B&D; is always looking for ways to improve garage safety. Discover the difference a safe and reliable garage door can make in your home with B&D;'s range of secure, family-friendly garage doors . Play Looking for more information?
