Our quote form opens on the main B&D website. Share your property address so we can confirm the appropriate consultation and dealer arrangements.

Garage door advice for your Glen Iris property

We'll help you turn ideas into a practical selection. Tell us whether you're building, replacing an older door or looking at automation for your current door. Your opening, available space and operating needs help determine the right configuration.

Ask about a B&D To You mobile-showroom consultation to see samples and discuss your options at home. We'll confirm availability, the appointment arrangements and what can be shown for your address. You can also explore our Victorian dealer network or use our postcode dealer finder for local advice.

Compare the door styles

Start with the way the door will use your garage space, then explore the look. We'll help you check the opening and installation requirements before ordering.

What you're considering	Explore our range	Discuss in your quote
A roller door	Explore Roll-A-Door , Roll-A-Door Neo and our	The space above and beside the opening, curtain/profile, finish

	Roll-A-Door Secure system .	and compatible automation. Features differ between models.
A sectional door	Compare Panelift and Panelift Icon .	The profile, finish, overhead space, opener and selected package. Panelift Icon includes AUTO LOCK; confirm the complete configuration in your quote.
Limited headroom or replacing a tilt door	Explore Flex-A-Door , our steel sliding-door alternative.	Have the site measured to confirm the required clearances and whether this format suits your opening.
An architectural finish	Explore our designer range , including natural and timber-look finishes.	The available finish, profile and size combination, physical samples and care requirements.

Choosing for a business, warehouse or shared-access property? Start with our commercial door range and discuss traffic, operating frequency and controls. Residential product and warranty assumptions should not be carried over to a commercial application.

Choose the door, opener and security options together

An opener, a physical lock and Safety Beams do different jobs. We'll help you understand which features are included with the selected model and which need compatible optional equipment.

Automation: explore our openers and remotes . For an existing door, have its condition, balance and compatibility assessed before selecting an opener.

Physical locking: AUTO LOCK uses an automatic locking bolt. Ask your dealer to confirm the compatible door, opener and installation for your package.

Safety: discuss Safety Beams and the safety equipment required for your selected controls.

Smartphone access: explore our smart-control options . Confirm the exact opener, connectivity and compatible Safety Beams requirements before ordering.

Get a quote you can compare

A free new-door quote starts with your property and the system you want. Share photos or building plans if you have them, and tell us about any special site or building requirements. Your dealer confirms the measurements and suitability of the proposed configuration.

Identify the door model, dimensions, profile and finish.

Confirm the opener, controls, locks and safety equipment included.

Ask about installation, removal of an old door and any electrical or building work.

Confirm lead time, access requirements, payment terms and exclusions.

Check the applicable warranty, registration and servicing conditions for the particular door and opener package.

Explore our price guide for budget planning and warranty information for the relevant terms. A 10-year Total Confidence Warranty is subject to the eligible package and its conditions; it is not a blanket warranty on every product or installation.

Try our Garage Door Visualiser to compare the overall look on your home. Your screen is a starting point: view physical samples and confirm the finish available for your selected model before ordering.

Servicing and repairs in Glen Iris

If your existing door needs attention, tell us the door and opener model, the symptoms and your address. We'll help direct your service enquiry or repair enquiry through the appropriate team. Ask about appointment availability, inspection or call-out charges, parts and repair costs before booking.

A free new-door quote is separate from service and repair charges. Use the care and operating instructions for your exact model, available through our support resources . If a door is damaged, hanging unevenly or moving unexpectedly, stop using it and arrange professional assistance. Avoid forcing it or attempting spring or cable adjustments yourself.

For urgent assistance, use our emergency repair guidance and call to confirm availability. Appointment and response times depend on your location and the provider.
