Our advanced technology prevents code theft, ensuring your garage is safe so that only your approved remote controls will open your garage door. It also offers the added benefit of stopping interference from other wireless devices such as doorbells and baby monitors. Every B&D; automatic opener includes genuine B&D; remote controls and a wall mounted control for easy access inside your garage. Find a supplier near you Find a supplier near you Find a supplier near you Call us today Call us today Call us today On this page Which garage remote is right for me? What's Tri-Tran+ technology? Smart as can B&D; FAQ's Which garage remote is right for me? With so many different remotes it can be a bit overwhelming to know what to choose. That's why at B&D;, we've made it simple. All B&D; openers (excluding Roll-A-Pro *) comes fully equipped with two handheld Tri-Tran+ premium remotes and a convenient wall button. *B&D;'s Roll-A-Pro opener comes equipped with three premium remote controls and no wall button. Tri-Tran+ Premium Remote Control Our premium remote control combines a stylish and robust design with our Tri-Tran+ technology that protects against code grabbing devices, keeping your garage safe from would-be opportunists. Find a supplier near me Find a supplier near me Find a supplier near me B&D; Wall mounted remote The stylish wall mounted remote control sits flush with the wall on the inside of the garage, allowing you to conveniently open and close your garage door with the touch of a button. Find a supplier near me Find a supplier near me Find a supplier near me What's Tri-Tran+ technology? Tri-Tran+ prevents code theft so that only your approved remote controls will open your garage door. With dangerous Apps readily available to download and hack into garage door opener, it's easier than ever for would be thieves to gain access to your home. B&D;'s smart and encrypted Tri-Tran+ technology works by simultaneously transmitting on three different frequencies ensuring your garage is tightly secured against criminals. Wireless devices such as headphones and sound systems also operate on the same frequencies as door and gate openers and can jam out your opener's receiver, even from a distance. With multi-frequency capability, the Tri-Tran+ transmitter will operate your garage door even if two frequencies are jammed. Two Tri-Tran+ Premium Remote

Controls come with each B&D; opener . Designed to fit comfortably in hand, there's a red and a black version so you'll know which belongs to whom. You can also choose a lightweight, four-button remote perfect for attaching to a keyring. Grant access with the click of a button B&D;'s fully-integrated secure access solution puts you in control of managing and monitoring access to your home, whether you're there or not! Use your smartphone to help keep you, and what you value most, safe. Do you ever get parcels delivered to your home? Have you ever had to let a family member in while you were on holiday? Do you really know what time the kids got home last night? Never worry about racing home to provide access again! Play Play Need help finding something? We understand choosing a garage door that doesn't compromise on security, safety and dependable operation can be challenging.
