While all B&D; automatic garage door motors feature built-in auto-reverse functionality to stop the door from colliding with an object, Safety Beams are specially designed to prevent potential injury to people or damage to valuables. Safe as can B&D; Get A FREE Quote Get A FREE Quote Get A FREE Quote On this page Pair your Safety Beams with: Warranty Safe as can B&D; Frequently Asked Questions Download files How does it work? B&D; strongly recommended safety beams if you have kids or pets. B&D; Safety Beams will stop your door from closing if the infrared beam is 'broken' or obstructed, ensuring you, your family members, friends and valuable possessions are kept out of harm's way. Infrared sensors are placed on either side of your garage door, inches above the ground. When the door begins to close, the sensors are immediately activated. If a sensor recognises something in the path of the door closing, such as a child, pet or car, it stops the door and immediately reverses it back up. Plus, unlike others on the market, B&D; Safety Beams are completely wireless. That means there's no need for complicated electrics and removes the risks associated with damaged wires. B&D; garage doors keep your pet as safe as can B&D; The garage door is often the largest, heaviest moving part of a home, so consider the risks if it were to close on a family member, pet, car or bike. While all B&D; automatic garage door motors feature built-in auto-reverse functionality to stop the door from colliding with an object, Safety Beams are specially designed to prevent potential injury to people or damage to valuables. So you can keep Bee & Dee as safe as can B&D.; Play Pair it with B&D; roller door openers B&D; always recommends the use of infrared safety beams on automatic garage doors. To provide the safest, most secure garage door solutions, all B&D; doors and motors are tested to work together. If you've considered automating your roller door, Power Drive packs a powerful punch. It boasts a tough yet quiet 600N motor, long-lasting LED automatic lights and soft start-and-stop functionality to reduce door stress. Roller door openers Roller door openers Roller door openers B&D; sectional door openers When installing a B&D; Smart opener you're required to install safety beams to ensure that you can safely operate your door from anywhere in the world. Designed and tested to work in unison with your

B&D; sectional garage door, Smart openers are the ultimate in safety and security for your home. Quiet operation paired with exceptional ease of access through your smartphone means you can safely and conveniently operate your garage door from anywhere in the world. The heavy-duty motor provides smooth lifting and lowering for the ultimate in secure operation. Sectional door openers Sectional door openers Safety beams compulsory For all openers with smartphone capability From the 1st of December 2020, Safety Beams are compulsory with the sale of any Smart opener device. B&D; strongly support this position as it eliminates potential hazards, making your garage door as Safe as can B&D.; Smart door solutions Smart door solutions Smart door solutions Warranty Safety Beam Warranty B&D; Wireless Safety Beams are covered by a one-year warranty. If you can't see the answer, give us a call on 13 62 63 and our friendly team can help you out. What is a safety beam? Safety beams sit at the base of your garage door and shoot an invisible beam from one side of the door to the other. When the beam is obstructed the garage door opener will not engage and if it is lowering will automatically stop and reverse preventing potentially catastrophic damage. Safety beams are crucial for families with pets or small children and are required by law to be fitted on all garages with smart phone capability . For more information call us on 13 62 63 to discuss what options are available for you. My garage door goes down and then goes back up again, what is the issue? Garage doors that lift and lower on their own are known as 'phantom openings' or Auto-Reverse. For more information on what to do check out our handy video tutorial below. Auto-reverse usually requires a service by a qualified garage door technician . Why isn't my garage door opening? Follow our quick troubleshooting video below.
