A WiFi enabled garage door opener combines B&D's best-selling roller and sectional garage doors – like Panelift, Panelift Icon and Roll-A-Door – with intelligent smartphone connectivity via cellular or WiFi. Available across the entire B&D; garage door range, Smart Door Solutions give you total control and added security over your door while you're at work or on holidays – all you need is a smartphone. Get A FREE Quote Get A FREE Quote Get A FREE Quote Why you need a WiFi enabled garage door opener If you often leave the house and think 'did I shut the garage door?' – a smart garage door opener is an investment worth considering. Designed to give you control, convenience and peace of mind, a WiFi garage door opener is the modern way to manage access to your home from anywhere. Note that cellular and WiFi control are only possible when a smart garage door opener is paired with the B&D; Smart Phone Control Kit (sold separately). Convenient security at your fingertips Are you an avid online shopper with multiple parcels arriving throughout the week? Prefer to skip the supermarket queues and get groceries delivered to your door? Need to grant access to tradies or family members? Or perhaps your kids, who are constantly losing their keys, are fed up with getting locked outside? With a smart garage door opener, you can safely and securely open your garage door with your smartphone, from anywhere. You can also easily manage who has access to your garage, set opening modes and access times, as well as monitor the entire garage via video. Remote video monitoring depends on you having smart security cameras that support remote viewing. Plus, you'll get real-time notifications whenever the door's been left open or obstructed. Control your door with the sound of your voice! B&D; smart garage door openers can be linked to multiple smartphones, so everyone in the family has access to operate the door. Plus, if you're caught up in the kitchen or can't step away from the computer and your smartphone isn't within easy reach, you can control your door using voice commands through Google Home or Apple Siri. Exciting features, superior functionality Greater garage security Total control over your garage door Connects with multiple devices Garages are a target for thieves as they're often the easiest entry point. Valuable items like bikes, tools, and even vehicles are common targets. Most garages also lead straight to the home, so ensuring your space is properly secured is essential for your

family's safety. B&D; smart garage door openers include built-in safety features such as auto-close timers, real-time notifications and obstruction alerts. For even more peace of mind, you can add the AUTO LOCK™™ system – a powerful automatic dead-bolt lock that activates every time your door shuts. All transmissions use advanced encryption for added digital security, and you control who gets access. The B&D; App is customisable to suit your needs and lifestyle. It only allows authorised users (nominated by you) to operate the garage door without a remote. You can grant access to as many users as you'd like via their own Smartphones – or remove access just as easily. Featuring partial opening functionality and the ability to implement restricted door access times, you can rest assured only those you trust can enter your garage. The Activity Log allows you to easily view usage history on the B&D; App, so you'll know exactly who's operated your garage door and when. To ensure you, your family and your valuables are properly protected, this is an important feature that enables you to track and record day-by-day activity to gain greater insight into who's coming in and out of your garage. Control multiple properties from anywhere Control multiple garage doors and compatible gates in various locations, regardless of where you are. If you're away for the weekend and need to grant access to both your home's garage door and a holiday home's garage, this can easily be done through the B&D; App. Optional upgrades Even when your garage door is closed, it might not be locked. AUTO LOCK™™ automatically secures the door with a heavy-duty bolt each time it shuts – no keys, no hassle. It's a must-have for families or homes with internal access from the garage. Works with what you already use B&D;'s WiFi garage door opener is compatible with: B&D; sectional and roller garage doors iOS & Android smartphones and tablets Google Home and Apple Siri voice control Bluetooth and 2.4 GHz Wi-Fi support comes standard, giving you flexible connectivity wherever you are. Easy setup & mobile app The B&D; Smart Door Hub can be installed quickly by a B&D; Accredited Dealer . Once installed, simply: Download the B&D; App from the App Store or Google Play Pair it with your opener and Wi-Fi Customise access and enjoy full control Common questions Does it work during a power outage? Pair it with a B&D; Battery Backup for continued operation even if the power's out. Can I manage multiple users? Yes – you can grant or revoke access to family, guests, or service providers easily via the B&D; App. Is there a subscription fee? No, access and control features are included free of charge with the Smart Door Hub. Is the system secure? Yes. End-to-end encryption, secure device pairing, and local key storage keep your garage and data safe. Recommended safety upgrade AUTO LOCK™™ Enhance the safety and security of your garage door with AUTO LOCK™™ , an innovative automatic locking mechanism designed to prevent thieves from forcing an unlocked garage door open. A garage door may be closed, but that doesn't mean it's locked. Designed to prevent thieves forcing an unlocked garage door up and open , AUTO LOCK™™ receives a signal from the remote to instantly lock the garage door with a heavy-duty bolt – without the need for a key. AUTO LOCK™ AUTO LOCK™ AUTO LOCK™ Download the app today Control multiple garage doors and compatible gates in various locations, regardless of where you are in the world. If you're away for the weekend and need to grant access to both your home's garage door and a holiday home's garage, this can easily be done through the B&D; App. Apple app store Apple app store Apple app store Control your door with the sound of your voice! B&D; smart garage door openers can be linked to multiple smartphones, so everyone in the family has access to operate the door. Plus, if you're caught up in the kitchen or can't step away from the computer and your smartphone isn't within easy reach, you can control your door using voice commands through Google Home or Apple Siri. Smart Phone Control Kit Smart Phone Control Kit Smart Phone Control Kit B&D; garage doors keep your parcels as safe as can B&D.; The modern home has become a hub of people coming and going at all hours of the day through the only automated door in the house, the garage door. With B&D; mobile app, you can open the garage door, let your local postman in to drop off tonic for your G&T; bar and close it behind him on the way out. Play Reimagine your home with a B&D; garage door. With our latest garage door visualiser, you can effortlessly preview how a new door will enhance your home's exterior.
