Why is your garage door opening and reversing by itself? Why is your garage door opening and reversing by itself? This is a quick tutorial on what to do if you suspect your garage door is opening or reversing on its own. Garage doors opening of their own accord are known as 'phantom openings'. This may sometimes occur from environmental factors like wind, dust or extreme temperature changes. Remove any obstructions and clean around the door as a first step. The most common reason for a door opening on it's own is obstructions either detected by safety beams or by the door as it closes. If safety beams are installed check their alignment. Ensure the door smoothly runs up and down by watching a couple of door cycles. Please undertake all garage door cleaning and maintenance safely. If these solutions haven't worked and repair is required, call B&D; for a professional service and do not use the door or attempt to repair the door yourself. Play Garage door repair & servicing should only be provided by a trained professional Whether you've got a B&D; garage door or not, it's worth giving us a call every year or so. Our team of professional garage door technicians can service and repair all makes and models, and will keep your garage door in perfect working order, maintain its warranty and prevent potentially dangerous or expensive problems in the future. Call us or fill in the form below and we'll connect you with a B&D; dealer in your local area. Book Repair & Service Book Repair & Service Book Repair & Service Need help finding something? We have a number of ways to help you find what you're looking for. If in doubt, give our friendly team a call. We'd love to hear from you.
